

Facility * Completed by * Date *

What this sheet controls. Your weekly test, how much a drop matters, and when maxes get re-set.

1 Your philosophy

Write it the way you would explain it to a new coach. Not imported. It stays with your install notes.

1. Which tests matter for your sports, and what does each tell you?

2. What does a bad test day mean to you?

2 Your decisions

Pick the answer that matches how you coach. Each answer sets the app's numbers for you. "STS" marks the Strength Through Systems standard.

QUESTION	YOUR ANSWER	WHAT EACH ANSWER MEANS
How much should a drop in the weekly test affect the day? *		Big deal: Small drops cost points. Balanced (STS): Down 4% costs 5 pts. Down 7% costs 10. Small deal: Only big drops cost points. Track only: Recorded. Never changes the score.
Compare each test to the athlete's last... *		2 weeks: Quick to react. Month (STS): Steady. 2 months: Slow to react.
Re-test anchor maxes every... *		4 weeks (STS): 6 weeks: 8 weeks:
On Yellow and Red days, testing... *		Always runs: Test as scheduled. Protects (STS): Yellow: weekly test only. Red: none. Stops: No testing on Yellow or Red.
Do you track bar speed every session? *		No (STS): Yes: Bar speed down 10% drops a zone.

3 Your program

Your exercises, drills, and days. Write them exactly as you want athletes to see them.

Your weekly test

RULE	YOUR RULE	PROTOTYPE EXAMPLE
Test name *		Countermovement jump
Test day *		Mon
Unit *		in

Testing

RULE	YOUR RULE	PROTOTYPE EXAMPLE
Higher or lower is better *		Higher

4 Advanced numbers (optional)

Leave blank and your Layer 2 answers set these. A filled box overrides the answer. Usually completed with STS during the install.

RULE	YOUR RULE	PROTOTYPE EXAMPLE
Baseline window	days	30
Small drop starts at	%	4
Small drop: points off		5
Big drop starts at	%	7
Big drop: points off		10
Re-test maxes every	weeks	4
Yellow day testing		Weekly test only
Red day testing		No testing
Bar speed check		Off
Bar speed drop that lowers a zone	%	10

Common mistake. Testing everything and acting on nothing. If a result can't change the plan, it doesn't belong in the score.
