What this sheet controls. What every athlete intake must include, and how new lifters start.

1 Your philosophy

Write it the way you would explain it to a new coach. Not imported. It stays with your install notes.

1. What do you need to know about an athlete before day one?

2. How do you start a brand new lifter?

2 Your decisions

Pick the answer that matches how you coach. Each answer sets the app's numbers for you. "STS" marks the Strength Through Systems standard.

Common mistake. Skipping intake to get athletes moving faster. Every rule downstream is only as good as the profile.
